a) **21/00021/PR15**

**LOCATION:** 8 Springfield Drive Boroughbridge York North Yorkshire YO51 9ED

**ALLEGED BREACH: Alleged change of use from residential to childcare business, rear extension and tree house**

**HBC Planning reported 25<sup>th</sup> February as follows:** *Further to a report received advising us of a possible breach of planning control at the above location, I write to inform you that an investigation has been carried out.*

*The outcome of the investigation is as follows: I have visited the site to measure the extension etc. and the extension falls within permitted development rights, therefore no permission is required.*

*With regards to the business I have discussed this with my line manager based on the information provided by the owner. It is always down to whether there is a material change of the property when it comes to businesses being run from home as to whether there has been a change of*

use at the property or not.

*Based on the information we have, which is predominantly two children with a third child before school for an hour, it is not considered that this constitutes a material change of use and therefore we do not consider there to be a breach of planning - we would happily investigate this again in the future if the intensity increases etc. but for the time being the case will be closed. I will be writing to the owner confirming this but also making them aware that if the intensity Planning increases then this may well result in a material change of use.*

**b) 21/00044/PR15**

**LOCATION:** Hollin Carr House Horsefair Boroughbridge North Yorkshire YO51 9AD

**ALLEGED BREACH:** Piling works causing vibrations and potential damage to sewage pipes

**HBC Planning reported 25<sup>th</sup> February as follows:** *Further to a report received (from BTC) advising us of a possible breach of planning control at the above location, I write to inform you that an investigation has been carried out. The outcome of the investigation is as follows:*

*No planning conditions were applied to the permission relating to noise and vibrations, or damage to property. As such, there is no breach of planning control in this regard.*

*The developer has been contacted, and has stated they have had conversations with the adjacent residents, but the issues raised appear to be a civil matter, or outside the jurisdiction of planning enforcement.*

*Environmental Protection have been informed about the noise and vibration nuisance, and Yorkshire Water regarding the sewage pipes. They are now investigating.*

**c) 21/00117/BRPC15**
